

Common Verbs - Present Tense

Serbian verbs in the present tense change depending on the subject (I, you, he, etc.), similar to other Slavic languages. Common verbs like "jesti" (to eat), "ići" (to go), and "govoriti" (to speak) appear frequently in daily conversation. For example: "Ja jedem" (I eat), "Ti ideš" (You go), "On govori" (He speaks). These patterns help you understand verb conjugation and sentence building. This lesson introduces you to 10+ useful verbs and shows you how they are conjugated for each subject. You'll also learn to make simple present-tense sentences and questions, such as "Da li govoriš engleski?" (Do you speak English?). With repetition and exercises, you'll get used to recognizing and using verbs correctly in real-world scenarios.
