

Days of the Week

Knowing the days of the week in Serbian is essential for talking about schedules, planning trips, or discussing events. The days are: Ponedeljak (Monday), Utorak (Tuesday), Sreda (Wednesday), Četvrtak (Thursday), Petak (Friday), Subota (Saturday), and Nedelja (Sunday). Like English, the week in Serbian starts with Monday and ends with Sunday. This lesson teaches you how to say each day, spell it, and use it in common phrases like "Vidimo se u petak" (See you on Friday) or "Radim ponedeljkom" (I work on Mondays). You'll also learn how to ask what day it is and answer questions involving dates and appointments. Through games and repetition, you'll memorize the days and use them naturally in your conversations.
