

Colors

Colors in Serbian are used often in both descriptive and artistic contexts. The main colors include: crvena (red), plava (blue), zelena (green), žuta (yellow), crna (black), bela (white), and narandžasta (orange). Being able to describe objects by color is useful in shopping, giving directions, or even describing people and clothing. This lesson walks you through each color word, its gender agreement with nouns, and how to use colors in real sentences like "Imam plavu majicu" (I have a blue shirt). You'll also learn how to ask "Koji je boje?" (What color is it?) and respond appropriately. Practice activities will help you associate the words with visuals and reinforce color vocabulary in a fun way.
